University Communications
September 2020

Each month, faculty members from across the University share their expertise on The Conversation, an independent, not-for-profit news source committed to communicating the work of scholars. The Conversation makes all of its articles available at no charge to any news organization that wants to republish them. In addition, The Associated Press distributes The Conversation articles to newsrooms across the United States.

To recognize University of Arizona scholars who are contributing to The Conversation's goal of informing public debate "with knowledge-based journalism that is responsible, ethical and supported by evidence," the Office of University Communications will post a story each month listing the articles that have been published on The Conversation.

Below please find the list for August.
