The Women in Science and Engineering (WISE) program was established at the University of Arizona in 1976 as part of the Women's Studies Department and the Southwest Institute for Research on Women. WISE offers a wide range of programs for both K-12 and university students, including mini-STEM conferences, academic and career preparation programs for college students, for-credit internships and student engagement opportunities, scholarships, and much more!

Visit the WISE website [here](http://wise.arizona.edu) [1].
