

Fall 2017 Open Enrollment – UA Student HealthCare Options

Date::
August 2, 2017

Please be advised that all students who were enrolled in the Student Health Insurance Plan or CampusCare for the spring/summer 2017 coverage period will be automatically enrolled within 3 business days of showing a registration unit.

All email notifications go directly to the student's official University of Arizona (@email.arizona.edu) email address in compliance with the University of Arizona email policy.

The University of Arizona mandates that all international students on non-immigrant visas (degree and non-degree seeking, resident or non-resident tuition) be enrolled in the Student Health Insurance Plan, unless one qualifies for an exemption (this includes international UA Online students).

Newly appointed Graduate Assistants/Associates (GA) or those who missed the previous enrollment must enroll for coverage in order to receive the Student Health Insurance Plan benefit.

September 5, 2017, is the **last day** of the UA HealthCare Options Open Enrollment. This is the last day to add, cancel or make changes. There are certain qualifying life events that will allow one to come onto the plan outside of an open enrollment providing arrangements are made within 30 days of the qualifying event. Please contact the Campus Health Insurance office for further information.
