

Free Cybersecurity Day for High School Students

Date::

February 21, 2017

Please share this information with your friends, family, neighbors and local schools to help us spread the word!

The NSF-NSA GenCyber Day will introduce high school students to the academic and professional world of cybersecurity. Students and their teachers will learn strategies, concepts and tools needed to defend against cyber-attacks from experts in the field.

The MIS department at University of Arizona, Eller College and Tennessee Tech are coordinating and hosting the event. We thank the National Science Foundation (NSF) and the National Security Agency (NSA) for their support.

Details:

Date: March 30
