Libraries Launching New Online Search Tool This Summer

To::
UA Community
Names and titles:
Sarah L. Shreeves, Vice Dean, University Libraries

Date::
June 14, 2018

The University of Arizona Libraries are always looking for ways to improve services for everyone who uses the library.

This summer, we will update the current library catalog and Summon search tool with a new system to help you find what you need. This cloud-based system is part of a collaboration between the University of Arizona, Arizona State University and Northern Arizona University to support greater fiscal responsibility and operational efficiency.

Librarians will be available to work with students and faculty to ensure discovery and access to information and library materials.

We appreciate your patience as we work on integrating the new system and minimizing disruptions.
