OSCR Online Software Support via Zoom

Date::
May 1, 2020

Do you or your students have questions about using Adobe Creative Cloud, SolidWorks, other multimedia software, or Office 365 applications?

Get help on your projects from the Office of Student Computing Resources (OSCR). While computer labs are closed, students, faculty, and staff can meet with OSCR’s Multimedia Zone lab consultants via Zoom.

Please share this resource with your students as they work on projects like final presentation portfolios or VoiceThreads.

Visit the OSCR website for **hours and Zoom links** [1].
