Provide Feedback on Barriers to Access

To::
Campus Community
Names and titles:

Disability Resources

Date::
September 1, 2015

Disability Resources works across campus to ensure access in all University physical spaces and of all technological resources.

If you've encountered a building, facility, or any type of physical barrier or a website, email, computerized form, training tutorial or any other technology that was inaccessible to you, we'd like to know. Please go to http://drc.arizona.edu/forms/report-campus-access-barrier [1] and complete a brief form to tell us about your experiences.

DRC staff will follow up on all concerns and be in touch as we resolve the issues you help us to identify.

Thanks in advance for your partnership in creating a more accessible University.
