

## Save Money on Parking – Learn to Ride Sun Tran

Date::

August 16, 2018

At UA Parking & Transportation Services (PTS), our goal is to get you to and around campus in the most efficient, convenient, and cost-effective way possible.

While parking may be limited on campus, off campus Park 'N Ride permits are still available for purchase.

Our new 9010 Park 'N Ride lot is conveniently located near the Tohono Tadaí Transit Center on the northeast corner of Stone Avenue and Wetmore Road. Park in the lot, then hop on one of two frequent bus routes to head directly to campus. The #6 bus arrives every 15 minutes and takes you to the west side of campus. The #15 bus also arrives every 15 minutes and takes you to the center of campus. The total cost of the 9010 Park 'N Ride permit, and annual bus pass is \$250.

Use the 9010 Park 'N Ride lot to reduce your driving time and save over \$440 this year (compared to parking in a garage on campus). If you care about the air, you might also be surprised to find out that you can save about 6 pounds of carbon dioxide each day by using the 9010 Park 'N Ride rather than driving by yourself.

Not sure how to use the bus? We'll show you how and give you a free, delicious breakfast at the same time if you RSVP by August 22 at <http://bit.ly/UAPTSLearnToRide> <sup>[1]</sup>! Join us on August 28th between 7 AM and 9 AM at the 9010 Park 'N Ride lot. Park for free. Get a free bus pass. Enjoy some free, delicious breakfast. We'll walk you through that first bus ride so that you feel confident every time you ride.
