At WSIP’s summer Graduate Writing Institute, graduate students from various disciplines participate in individual and group writing activities to develop academic writing skills and make progress on a writing project.

This program helps graduate students complete research projects, articles for publication, conference presentations, grant proposals, theses, and dissertations.

**TESTIMONIALS**

“I cannot thank you all enough. . . . I feel so encouraged to continue pressing onward on my journey for my Doctorate.

“This experience was a catalyst for my next steps as a PhD student.”
